A

Species−profile UMAP of five focal groups

UMAP 2

UMAP 1

B

Species accumulation

Accumulated species richness

Number of samples

Focal group

Brazil − granite

Israel − others

Israel − rock/stone

United States − marble

United States − metal

C

Observed species richness

Kruskal−Wallis p = 1.39e−06

Richness

Brazil granite

Israel others

Israel rock/stone

United States marble

United States metal

D

Shannon alpha diversity

Kruskal−Wallis p = 3.92e−09

Shannon diversity

E

Bray−Curtis species PCoA

PERMANOVA R2 = 0.254, p = 0.001

PCoA2 (6.8%)

PCoA1 (14.1%)

F

Median Bray−Curtis distance
